

SEA SHELLS IN PEGOS OIL FIELD

Pecos, Tex., Aug. 14.—Rich sea shell deposits found at 400 feet by the El Paso Petroleum Co. in its well south of Pecos have added much to the fund of knowledge regarding the geology of the Pecos country as revealed by the more than fifty wells now being drilled.

Shell deposits are found in large numbers in the mountains to the west of the Pecos valley, but these are the first marine beds to be discovered in the territory outside the Bell well district. In the latter place shell deposits in this layer are found at from 600 to 1200 feet and both the Bell and the Bell-Rover, which have found true oil sands, passed through shell formations.

The Dominion Oil company reports rapid progress during the past week on its three wells, located ten miles apart in Ward county, just across the Pecos river from Pecos. The Soda Lake, the pioneer, is down 1340 feet, the River well is down 1000 feet, having caused a flow of 150,000 gallons of water a day, and the Valley well is down 840 feet. These three wells are part of a development campaign that contemplates the expenditure of more than \$400,000 in the Pecos valley.

There is a strong possibility that the Bell well will be revised this week. On Tuesday it is planned to drill through the cement filler that was set ten days ago and the 100 feet of filling under the cement, and if the water is shut off the well is believed to be good for as good a production as was the case at the start of operations.

Parker and Hancock have resumed drilling on their 1000 foot test between the Tostal and the Bell area, after a long wait for repairs.

EIGHT ADMITTED TO BAR IN NEW MEXICO

Santa Fe, N. M., Aug. 14.—Licenses to practice law have been issued by the state board of bar examiners to three applicants on certificates from other states and who had passed successful examination. On certificates were J. K. Simms and J. H. Crocker, of Albuquerque, and H. N. Nugent, of Fort Sumner. Admitted on examination were Dennis Chavez, Albuquerque; N. E. Noble and Thomas F. Truett, Las Vegas; David A. Calderon, Roswell, and L. H. Miller, Hillsboro.

The Pacific Cooperative league, of San Francisco, incorporated in California, has filed its charter in New Mexico and will maintain a district office in Albuquerque, in charge of W. K. Patterson. The league has no capital stock, but for admission charges a membership fee of \$10 and an organization fee of \$5. A campaign will be made for members in New Mexico.

PRINTERS AND TYPOTHETAE TO DISCUSS 44 HOUR WEEK

Albany, N. Y., Aug. 14.—The annual International Typographical union convention in the closing days last night ratified the 44 hour negotiations of the executive council and the United Typothetae of America, Chicago, whereby it was agreed all publishers under the jurisdiction of the Typothetae and all printers under the jurisdiction of the International Typographical union enter negotiations to establish the 44 hour week without decrease in wages.

TO GIVE A HOMECOMING WELCOME TO NEGRO SCOUTS

The committee of the four negro Boy Scout troops of El Paso, and their friends are planning a homecoming next Tuesday evening for the boys who are now in camp at Cloudcroft. The entertainment will be given on the lawn of the El Paso Hotel, corner Third and Tenth streets. Aside from the local troop committee, there will be present some of the members of the executive committee.

F. A. Hill, chairman of committee troop 21, is in charge of arrangements. Rev. H. A. Wells, chairman of the central committee of negro Boy Scouts, will be master of ceremonies.

A bill giving women the right to vote has been passed by the Philippine senate.

PROGRAMS IN LOCAL THEATERS

They certainly swing some wicked waltzes and tumbos, those "Seven Belle Tones" at the Alhambra this week. The program announcement does not give a fair idea of what they are. The "Seven Belle Tones" are seven girls, all quite pretty, in Colonial costumes and white wigs that so camouflage them that you can't tell whether they are brunets, blonds or stately Titians, but they are musicians—every one of the seven. They start their music with two cornets, two violins, two trombones and a piano, and furnish duets, quartet numbers and solos, concluding the performance with a selection on brass, three of them playing trombones and four working the cornets. It is one of the best acts Vance Fulkerson has yet had to offer.

Next best on this week's program must rank with you have of the kind anywhere, are the feats of "The Four Danubians," booked as "European Casting Models." What they do on a trapeze apparatus is enough to make you gasp, and you'll not be satisfied if you don't applaud for it's good, very good.

Hooker and Davis, who have been working at the Crawford, where the Otis Oliver company has just closed, give a good dancing number. May Weston singing three songs, with a change of costumes and plenty of smiles with each, is just one more smile than costume—and Frank Morrell, "The California Boy," demonstrates that if you have a good voice, you can put over an act any old time. He got a lot of applause with a line of character that imitates Al Hawn, and he sang two or three songs in a way that also got applause. His comments upon the other people on the program brought a lot of laughter.

Miss Laurie Ordway, who was to have been on the program, sustained an injury on the train en route here from Albuquerque and had to go to Hotel El Paso instead of the Alhambra. The local picture houses all have good bills for the coming week. Below are the announcements of the managers:

Gremlin Theater.

Nothing's Always Wrong.

DON'T you get to fretting, friend. Over troubles left behind, Hard luck always has an end, Some day Fortune may be kind. If the outlook's dark today, Don't be yielding to despair; Every cloud must clear away, And tomorrow may be fair.

DON'T you let yourself forget That the way ahead is long; Back up! Nothing's always wrong. Hetchu in a little while You'll be on your toes once more, Shown! folks a brighter smile Than you've ever worn before.

THE NEWS WILL BE INTERESTING. As soon as the presidential campaign gets into full swing, we shall hear how many of the ships that were built at El Paso were able to put to sea.

NOTHING EXTRAORDINARY. "She's had a wonderful career, hasn't she?" he said, referring to the popular movie actress. "Oh, nothing remarkable. There are several men in the profession that she hasn't been married to yet."

Secrets Of The Movies Revealed

Q. What is one of the most essential things to remember in writing a moving picture scenario?
A. That you must have speed and suspense in your story. Keep your story moving. It must carry right on all the time and it must have that valuable element of suspense, keep 'em guessing. Remember: speed, suspense and surprise. Any story that has these three elements stands a pretty good chance of being accepted.

Q. Is Lottie Pickford Rapp's husband in the movies?
A. No, he is in the automobile business in Los Angeles. Lottie recently filed suit for divorce, but then withdrew it.

Q. How did the war affect the building of picture theaters?
A. Competent authorities say that the world is now short about 15,000 motion picture theaters. The shortage in America is not so great as it is in Europe and some of the Asiatic countries.

Q. What percentage of pictures produced in the United States are made in and around Los Angeles?
A. About 75 percent.

Q. What is a late cowboy recruit to the movies?
A. Owen Williams, a new film cowboy, is playing with Will Rogers. Williams is six feet, two in his boots, weighs 205, minus his chaps, spurs and six shooter. As he is just 25 there is a chance for him to grow up yet. Copyright, 1920, Thompson Feature Service.

Attack Prisoner Who Tricked Them of Gems

New York, Aug. 14.—Twenty-five young women, mostly brides, had to be restrained by detectives at Brooklyn police headquarters when they sought to attack Edward Koch, alias "Jack the Monster," alias Dr. Franklin, 24. Koch, according to the police, had robbed young married women of \$10,000 worth of jewelry in the past seven months by a novel scheme. He was arrested after detectives had fired three shots over his head in a chase.

The detectives made the arrest on the complaint of Mrs. Anna Schure, Conny Island, a bride of three weeks. According to Mrs. Schure, Koch, well dressed and suave, called at her home and told her that he had been sent by her husband to measure her for a \$200 gown. While Koch was busy with the tape he complained that Mrs. Schure's \$1000 diamond ring and other gems caught in the tape and interfered with the measuring. She removed the gems. Koch seized them, he charged, and dashed out of the house.

Koch, according to the police, has made a practice of watching for weddings and of calling on the brides within two or three weeks after the ceremony to rob them by the same method.

All 25 of the young women readily identified Koch and fought with the detectives to attack him.

Less than 50 years ago women prisoners in Tennessee were employed in breaking rocks for street pavements.
